The title 'The Place Between Words', refers to Luis Hernández Mellizo exploration of cultural identities within the Bijlmer and his endeavour to distinguish something that cannot in fact be written, spoken or translated. Mellizo's project seeks to portray a social landscape through his own experience of coexisting in the midst of the multicultural area, where he is caught between being a tourist and a newcomer.

*Luis Hernández Mellizo [Bogotá, Colombia, 1978] is the new artist in residence at the BijlmAIR studio, the residency program of CBK Zuidoost in collaboration with Bradwolff Projects and Stedelijk Museum.*
